Subject: Racist mp3 files available through Napster

Dear Sir,

Our association, the French Union of Jewish Students (UEJF) is a Paris-based anti-racist association. Since a few years one of our main concerns has been the propagation of hate speeches on the internet. You may have heard of some of our legal actions such as the one which led Yahoo to modify it's auction policy.

Many of our members drew our attention on a regrettable use of the Napster software, as a tool of nazi propaganda. When we connected on March 20th 2001 at 11:30 am (Paris time), the key word "*Adolf Hitler*" gave more than 100 results. We cannot believe that you'll accept racism as a shared value of the Napster community. As you recently set up a filter to protect the holders of intellectual property rights, we assume that here is a very good opportunity to solve the racist issue.

Therefore, given the current situation, we are expecting a clarification and a commitment to filter obviously racist and hate material. Should you need any help to identify the illegal files, we are ready to help you. We would appreciate a swift answer to this letter. Without a clear undertaking within 15 days, we shall seriously consider a legal action.

Best regards,

Ygal El Harrar
Chairman
